Frequently Asked Questions

I am not a professional dancer, can I take the course?

You do not need to be a professional or trained dancer, but you do need to be proficient in your style of dance. We know that the best dancers do not always make the best teachers, so we are looking for other qualities as well as dance talent. If you have been dancing for over 2 years, have a good grasp of technique and are able to pick up choreography it is likely you will be able to take this course. Obviously, you need to be a competent dancer to teach others to dance, so please carefully consider your dance level before applying as we will not be able to give refunds to those who are unable to complete the course due to lack of experience

Who can I teach for with the qualification?

There is no nationally recognised street dance teacher qualification at present. You'll be qualified to teach Urban Groovz for any Creation Dance branch across the country. In addition you'll be able to teach for any independent street dance class provider who requires a street dance teaching qualification. If you already have an employer who requires qualification, please check with them as to whether the course content is sufficient for their requirements. We do strive to give the best course we can in safe, effective dance education delivery for street dance in line with government guidelines and best industry practice.

You will be able to set up your own dance classes with this qualification - talk to us about starting your own classes in your area. Every candidate who passes the examination is considered for teaching work with Creation Dance nationally.

How much is the course?

£349.00 for London based courses and £199.00 for online based courses

When is the next course? How do I book?
